

Reliable Website Hosting & Maintenance for Small to Mid-Sized Businesses

Shared Synergy offers fast, secure, and scalable website hosting solutions tailored for local professionals and growing companies. From basic brochure sites to high-performance business platforms, our monthly plans include hosting, security, updates, and expert support so you can focus on your business while we handle the tech.

We specialize in delivering comprehensive hosting packages that combine technical excellence with hands-on support. Whether you're an independent professional launching your first website or an established company requiring enterprise-grade infrastructure, our tiered pricing structure ensures you get exactly what you need without paying for features you don't use.

Basic Plan – Perfect for Getting Started

\$49/month

For brochure-style websites or local service providers

Our Basic Plan provides everything independent professionals and small local businesses need to establish a solid online presence. This entry-level package delivers reliable shared hosting with essential security features, ensuring your website stays online and protected without breaking the budget.

Shared Hosting

Fast and reliable hosting infrastructure designed for optimal performance

SSL Certificate

Secure encryption for visitor data and improved search rankings

Security & Backups

Basic security protection with daily automated backups

Updates Included

WordPress and plugin updates handled by our team

Email Support

Professional assistance when you need help

Ideal for: Independent professionals, small local businesses, basic portfolios

Standard Plan – Enhanced Support for Growing Businesses

\$99/month

Everything in Basic plus enhanced features

The Standard Plan is designed for businesses experiencing growth and requiring more robust support. This tier builds upon our Basic offering with enhanced security measures, performance monitoring, and dedicated support time to handle content updates and technical needs as your business evolves.

Enhanced Security

Advanced firewall protection and malware scanning to safeguard your website from threats

Performance Reports

Monthly analytics showing your website's speed, uptime, and technical health

Support Time Included

Up to 1 hour of content updates or technical support per month

Staging Environment

Test updates and changes safely before pushing them live to your audience

Ideal for: Growing businesses that need more support or traffic control

Premium Plan – High-Performance Solutions

\$199

Per Month

Professional-grade hosting with priority support

3hrs

Support Time

Monthly updates and technical assistance included

VPS

Cloud Hosting

Faster performance and scalability for demanding sites

Our Premium Plan delivers everything in the Standard tier plus significant performance upgrades through VPS or cloud hosting infrastructure. This plan is engineered for businesses that demand faster load times, enhanced scalability, and priority support with quicker response times. You'll receive up to 3 hours of updates and support each month, ensuring your website evolves with your business needs.

Additional Premium features include SEO plugin optimization assistance to improve your search engine visibility and monthly analytics reviews using Google Analytics and GA4. Our team will help you understand your website traffic patterns, user behavior, and opportunities for improvement, transforming raw data into actionable business insights.

Ideal for: E-commerce sites, tech startups, consultants, or agencies requiring robust performance

Enterprise Custom Plan – Mission-Critical Solutions

\$250+/month

Tailored hosting for complex business requirements

The Enterprise Custom Plan provides dedicated infrastructure and advanced development support for organizations with mission-critical needs. This fully customizable solution includes 24/7 monitoring, dedicated server or scalable cloud infrastructure, and up to 10 hours of support and content updates per month.

Perfect for clients requiring compliance with industry regulations such as HIPAA for healthcare or financial services standards. Our team handles custom integrations, API development, and complex technical requirements that standard hosting packages cannot accommodate.

Dedicated Infrastructure

Exclusive server resources for maximum performance

24/7 Monitoring

Round-the-clock surveillance and immediate response

Development Support

Advanced technical assistance and custom integrations

Compliance Ready

HIPAA, financial services, and industry-specific requirements

Ideal for: Organizations with mission-critical needs or strict compliance requirements

Our Specialty: Custom Code-Based Websites

While we build and support WordPress sites, our true specialty is creating 100% code-based websites that are completely customized, aesthetically pleasing, and ultra-fast. Unlike traditional website hosting companies that rely on WordPress plugins and content management systems, we build and support your fully custom code-based site without the overhead and vulnerabilities that come with CMS platforms.

Our code-based approach eliminates the bloat of unnecessary plugins, reduces security vulnerabilities, and delivers lightning-fast page load times that improve user experience and search engine rankings. Every line of code is purposefully written to match your exact specifications, creating a unique digital presence that stands apart from template-based competitors.

No Plugin Overhead

Clean, efficient code without the weight of unnecessary plugins slowing down your site

Enhanced Security

Fewer vulnerabilities compared to WordPress sites with multiple plugin dependencies

Ultra-Fast Performance

Optimized code delivers superior speed and responsiveness for better user experience

Complete Customization

Every element designed specifically for your brand and business needs

Our pricing for 100% code-based websites is aggressive and competitive. Contact us info@sharedsynergy.ai for detailed quotes tailored to your specific project requirements and business objectives.

Professional Overview Videos

In addition to our website development and hosting services, we create professional overview videos that effectively describe your business or organization. These high-quality videos serve as powerful marketing tools that can be prominently featured on your website and shared across social media platforms, email campaigns, and client presentations.

A well-crafted overview video helps potential customers quickly understand your value proposition, builds trust through visual storytelling, and increases engagement rates significantly compared to text-only content. Our video production team works closely with you to capture your brand's essence and communicate your message with clarity and impact.

Professional Production

High-quality filming and editing that reflects your brand standards

Website Integration

Seamlessly embedded on your homepage for maximum visibility

Multi-Platform Sharing

Optimized for social media, email, and client presentations

These videos complement our website services perfectly, creating a comprehensive digital presence that engages visitors and converts them into customers. For slightly more than our standard hosting packages, you can add professional video production to amplify your online marketing efforts.

Why Choose Shared Synergy?

Shared Synergy stands apart from traditional hosting providers by combining technical excellence with personalized service. We don't just provide server space—we become your technology partner, handling every aspect of your website's performance, security, and maintenance so you can focus entirely on growing your business.

Speed & Performance

Lightning-fast load times that improve user experience and search rankings

Security First

Comprehensive protection with SSL, firewalls, and daily backups

Scalable Solutions

Infrastructure that grows seamlessly with your business needs

Expert Support

Knowledgeable team ready to assist with updates and technical challenges

Our tiered pricing structure ensures you only pay for what you need, with clear upgrade paths as your requirements evolve. From independent professionals to enterprise organizations, we have a solution that fits your budget and technical specifications.

Comparing Our Hosting Plans

Understanding which plan best fits your needs is essential for making an informed decision. This comprehensive comparison highlights the key features and benefits across all our hosting tiers, helping you identify the perfect solution for your business requirements and budget.

Feature	Basic	Standard	Premium	Enterprise
Monthly Price	\$49	\$99	\$199	\$250+
Hosting Type	Shared	Shared	VPS/Cloud	Dedicated
SSL Certificate	✓	✓	✓	✓
Security Level	Basic	Enhanced	Enhanced	Advanced
Daily Backups	✓	✓	✓	✓
Support Hours/Month	Email only	1 hour	3 hours	10 hours
Performance Reports	—	Monthly	Monthly	Real-time
Staging Environment	—	✓	✓	✓
SEO Optimization	—	—	✓	✓
24/7 Monitoring	—	—	—	✓
Custom Integrations	—	—	—	✓

Each plan includes WordPress/plugin updates (if applicable), though our specialty remains custom code-based websites that eliminate CMS overhead entirely. All tiers provide reliable uptime and professional support tailored to your business needs.

Ready to Get Started?

Whether you're launching your first website or upgrading your existing online presence, Shared Synergy has the expertise and infrastructure to support your success. Our comprehensive hosting and maintenance plans remove the technical burden from your shoulders, allowing you to concentrate on what you do best—running your business.

From basic brochure sites to enterprise-grade platforms, we deliver fast, secure, and scalable solutions backed by expert support. Our custom code-based websites offer unmatched performance, while our professional video services help you tell your story effectively.
